

Employee Assistance Programs

How We Help Your Employees

- With our Continuum of Care, we help take the stress out of caring for their loved ones
- We can provide expertise for their specific situations, help them attain peace of mind, and lift them out of “crisis” mode
- Knowing their loved ones are receiving proper care, employees can stay focused on the job – improving productivity and lessening the danger of potential accidents
- With their home situation more stable, employees don’t have to take extra time off – which can mean loss of income and increased use of sick time, which in turn often leads to even more stress and bewilderment
- Older adults’ conditions can change quickly -- we’re available on a moment’s notice; we can help stabilize short-term emergencies
- We help alleviate fears of termination due to frequent absences caused by the need to care for their loved ones
- Save up to 65% off the cost of prescription drugs at over 56,000 pharmacies with the *Free ABC Rx card!*

The “Continuum of Care” From Always Best Care

- With our Continuum of Care, we offer five distinct services for your employees, enabling them to be more productive with lowered absenteeism
 - ◇ *Always in Touch* – free daily telephone reassurance calls
 - ◇ Compassionate non-medical in-home care
 - ◇ Emergency medical alert services from Philips Lifeline
 - ◇ In select markets, we are now beginning to offer skilled home health care, too
 - ◇ Free assisted living referrals and escorted tours of key communities
- We help keep your employees on-the-job – we take the crisis out of caring for senior loved ones
- We help your employees concentrate on their jobs, not worry about what’s happening at home
